From: Commander, Naval Sea Systems Command  
To: Mrs. Nancy C. McCord

Subj: MERITORIOUS PUBLIC SERVICE AWARD

Encl: (1) Certificate, Medal, and Lapel Bar

1. It is a pleasure to approve the Meritorious Public Service Award for your exceptional contributions to the Naval Sea Systems Command (NAVSEA) and the Naval Reserve Engineering Duty (NRED) Officer Program.

2. Your superior standards of excellence and unparalleled skill in design, development, and deployment of a completely modernized web site serving over 1,100 naval reserve members is commendable. With over 400 pages, the new web site was a significant project that involved over 200 hours of your personal time and required dozens of phone calls and correspondence with the SEA 00ZR staff. The high quality of this web site projects a highly professional image for NAVSEA and the NRED Program. In addition, it provides a convenient medium to disseminate information relieving the staff from providing this same information via phone calls, faxes, and through the mail. The total savings in terms of time and expense are beyond measure and the benefits are both immediate and long-term. Your patriotism and sincere personal involvement in the welfare of the NRED Community have earned you the deepest respect of NAVSEA.

3. Your contributions to the command in shaping communications that are focused on the mission, goals and products of NAVSEA and the NRED Community are a credit to your professionalism and skill in software development and web page design. Thank you and congratulations on a job "Well Done!"

  
P. M. BALISLE
